# M. W. LYON'S

# Collegiate Institute,

## Nos. 161 FIFTH AVENUE & 937 BROADWAY,

**CORNER OF TWENTY-SECOND STREET.**

**Thirteenth Year.** **Attendance over 120.**

ROOMS.—There are none superior for School uses. All are upon the same floor, are steam-heated, spacious, light, lofty, well ventilated, and extend upon Twenty-second Street from Fifth Avenue to Broadway, with entrance from either.

ORGANIZATION.—The pupils make one school family in the opening devotions, and unite in singing and Scripture reading. The younger then retire to MRS. LYON'S room, while the Principal, in the main room, spends the entire day in the instruction and government of the others. None are away from him, except during recitation to assistants in adjoining class-rooms. Thus, one controlling mind is in almost constant contact with the minds of the pupils.

STUDIES.—These embrace all needful for Business, College, or the Scientific School. The foundation is laid in a thorough knowledge of the Common English Branches. The Principal gives special attention to preparation for College, and he designs that no candidate shall go from his School without ample moral and intellectual fitness. Each takes on final review the prescribed books of his College. During the last two years fourteen have entered college—seven Columbia, three Yale, two Harvard, one Williams, and one Troy Polytechnic. Other classes follow yearly.

INSTRUCTORS.—Only the best assistants, such as are experienced teachers, and are able to win the confidence of their pupils, are employed. Accomplished native professors of French and German daily instruct the classes in those languages.

PUPILS.—All ages are received: the youngest are with Mrs. Lyon. We desire pure, true, cheerful, obedient, diligent pupils, and none other. Those of the opposite character we do not expect to retain. The law that reigns between pupils and teachers, as well as among fellow pupils, is the law of love—love for each other and love for our work.

PHYSICAL CULTURE.—That the body may be trained equally with the mind, a large Hall upon the same floor with the School has been fitted up with piano, dumb bells, rings and wands, for Dr. Lewis' Light Gymnastics. Here classes are drilled each a half hour, daily, from October to April, by a superior teacher. The exercises are pleasant to most, salutary to all, and can be safely neglected by none.

# Collegiate Institute

## Nos. 161 FIFTH AVENUE AND 937 BROADWAY,

### CORNER OF TWENTY-SECOND STREET.

Thirteenth Year. Attendance over 120.

REPORTS.—On Monday, a full report of conduct and recitations during previous week is sent to parents, to be returned with their signatures, and at the cl of the year a familiar letter, indicating the progress of the pupil, and the teacher's ju ment upon his character and capacity.

LITERARY UNION.—This society, embracing the Principal and older pup meets at the Institute weekly, on Friday Evening, from November to April. It gath the *élite* of the School, draws them closer together, trains them to think and speak their feet, acquaints them with Parliamentary rules, and interests them in many of t great questions of the day. The Principal is always present. A library containing o eighty volumes of interesting and instructive reading belongs to the Union.

SCHOOL YEAR.—There are two half-year Sessions of twenty weeks ea The first commences September 20th, 1869; the second February 7th, 1870, and t School closes June 24th, 1870.

CIRCULAR.—For Terms, Roll of the School and additional information, the A nual Circular will be sent on application. Parents are invited to call at the Institu after September 1st, or at the Residence of the Principal, No. 63 Lexington Avenue.

# MUTUAL BENEFIT

# LIFE INSURANCE COMPANY,

## NEWARK, N. J.

ORGANIZED 1845.

## ASSETS: over, $16,500,000.

**Charter Perpetual.** **Strictly Mutual.**

## LEWIS C. GROVER, President.

—o—

Life Policies of every class issued on the most favorable terms. Purely mutual; no Stockholders control its business or share its profits. It is conducted exclusively by the insured members to whom it belongs.

All the Directors attend regular meetings of the Board and supervise the business. Each one is member of an acting Committee, meeting often for the same purpose. No Director or Officer is allowed to receive commissions on business or loans.

Careful in selecting risks, the Company guards the lives of its members. It does not encourage exposures known to be hazardous to health or life. It does not knowingly give permits to violate the laws of God or man. Conducted with prudence and care, it loses nothing on its investments. Its expenses are less than those of any other American Company.

All receipts beyond losses, expenses, and obligations, are annually returned. Dividends for the surplus are made to the members on the percentage plan. They are large as the largest, and very favorable to new members. They are so made that all can understand how their business is conducted. The Directors earnestly seek the best interests of the insured members.

All who desire to insure in and become members of a Company thus conducted, are invited to do so. Application can be made to the Company, or its agents, who will furnish Publications and Statements without charge.

# NEW YORK RUBBER COMPANY'S

## CIRCULAR

# TO THE TRADE.

The long experience of this Comp'y (incorporated in 1851) gives us great advantages over the less experienced in the manufacture of

# BELTING, HOSE OR PACKING,

and we invite dealers or consumers who have been selling or using an inferior quality of these goods, to our make.

We manufacture under

## "HAYWARD'S PATENT,"

and **OUR BELTING** is so made that the stretch is taken out in the most complete manner, and the surface rendered smooth—thus insuring perfect adhesion to the pulley.

**OUR HOSE** (as well as Belting) is made of Cotton Duck woven expressly for the purpose, and has attained a reputation to such an extent that our production heretofore has been inadequate to the demand.

We manufacture Hose of almost any strength required; as an evidence of which we would mention that we have made that which has ***stood a trial of One Thousand pounds to the square inch;*** also, that which is in ***constant use bearing from Four to Seven Hundred pounds pressure to the square inch.*** **The strength depends upon the weight and quality of Duck used, the number of plies, and a proper knowledge of the principle of Vulcanization.** We have repeatedly subjected the Hose of the different plies mentioned in our "List" to a very much greater pressure than therein specified without any indications of weakness.

# NEW YORK RUBBER CO.,
