V. B. PALMER,

COUNTRY NEWSPAPER SUBSCRIPTION

AND ADVERTISING AGENCY,

Tribune Buildings,—Opposite the Park, New York,

Embraces most of the best Commercial, Political, Religious, Literary, Scientific, Congressional, Legislative, Reformatory, and Agricultural Journals, Prices Current, &c., in the United States, British Provinces, &c., for which he is the duly appointed Agent to receive Subscriptions and Advertisements at his respective Offices in the Cities of Philadelphia, New York, Boston, and Baltimore, and specially authorized by the Proprietors to make contracts and give receipts.

☞ Through this Agency a convenient, safe, and systematic means is afforded for giving publicity to business pursuits of every kind in which the wants of the people of the country are in anywise concerned.

"Every one is now obliged, *if he would keep pace with the times*, to aid his physical exertions in trade, or whatever business he may be engaged in, by due recourse to those means by which his business profession may become generally known. This is the *intellectual* part of his business, and the press is the great medium through which it must, at the present day, be developed."

NOTICES OF PALMER'S AGENCY.

From the Philadelphia Public Ledger, March 7, 1843.

We observe that V. B. PALMER, Esq., has commenced a business agency for newspapers of other cities, and different parts of the country. His advertisement in another column of the Ledger explains the nature of the business he has undertaken; and we have little doubt that it will not only be found convenient to our citizens, merchants, and others, but of advantage to the publishers of such papers as have authorized him to act as agent for the transaction of their business, and through them that he may reap a benefit to himself for the enterprise.

From the Louisville Democrat, Feb. 21, 1846.

This advertisement is published through the medium of V. B. PALMER'S "Subscription and Advertising Agency," a most useful and meritorious establishment. Mr. Palmer has, by dint of great energy and indefatigable industry, succeeded in organizing this Agency, and accomplishing, by means of it, objects that were deemed altogether chimerical when it was first commenced. His success has raised up a number of imitators, who now advertise Newspaper Agencies in the Eastern cities. Mr. Palmer is no way connected with any of these. Having the most unlimited confidence in his capacity and integrity, he is fully authorized to make all necessary contracts as Agent for this paper. We wish it to be distinctly understood, that we have no other Agent in any of the cities of New York, Philadelphia, Boston, or Baltimore, and that all inquiries relative to such contracts, coming from these cities, even although directed to ourselves, will be referred to his Agency.

From the New York Tribune, July 11, 1846.

The business of advertising is imperfectly understood by merchants generally. Mr. PALMER'S great experience and extensive agencies enable him to give very important information and very valuable suggestions in these matters to all who may favor him with an interview. The subject, as presented by him, is certainly worthy the serious attention of all persons engaged in active business.

EDITORIAL CONVENTION IN NEW JERSEY.—The gentlemen of the press in New Jersey recently held a Convention, at which nearly all of the different papers were represented. Among other good things done at this Convention we observe the following, and recommend to the press in this State to do likewise.—*N. Y. Tribune, Oct.* 26, 1846.

Resolved, That in the opinion of this Convention, it is inexpedient for us to acknowldge more than one agent in each of the cities of New York and Philadelphia for our several papers.

And, Whereas, Mr. V. B. PALMER, of Philadelphia, has established agencies in all the large cities at considerable sacrifice of time and money; and, whereas, we have the utmost confidence in Mr. Palmer, therefore, *Resolved*, That we recommend him as a proper person to act as Agent.

From the N. Y. Daily Tribune, Nov. 6, 1847.

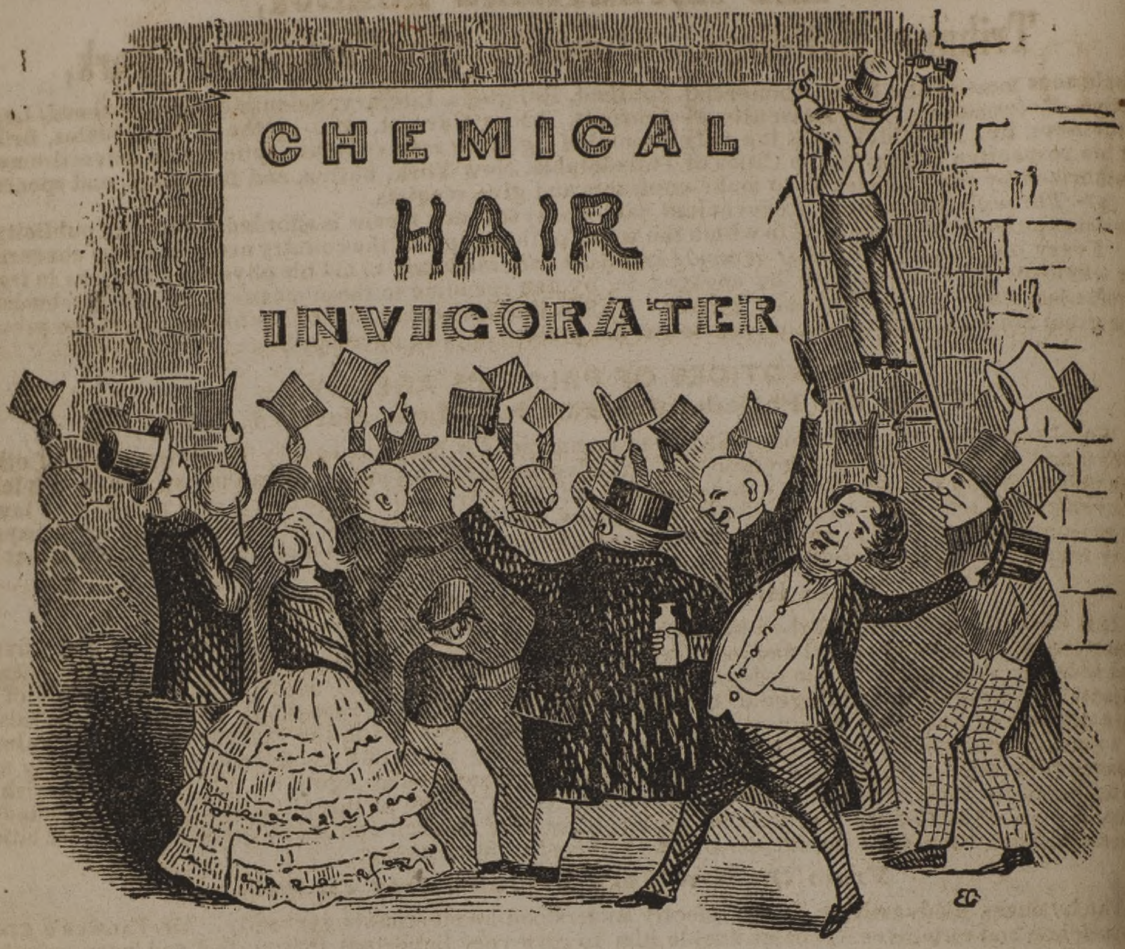
SYSTEMATIC ADVERTISING.—The time is gradually approaching when Trade will be carried on upon a system entirely different from that of our grandfathers—when, instead of many men doing a little business each, there will be a few engaged in traffic, doing each a very large business; thus liberating a great proportion of the agents and servitors of Commerce to be engaged thenceforth in Productive Labor. One principal agency in effecting this transformation is cash dealing instead of credit; but another, even more effective, is Systematic Advertising. The man who knows how to do business and has the means of doing it thoroughly (and a moderate capital will furnish the basis of an extensive trade on the cash system), will not much longer be able to clear his way without extensive Advertising. For if it be advisable to risk the cost of apprising one-tenth of the community that Peter Dombey sells the very best assorted Iron and Steel, Hardware, Nails, Cutlery, &c., at the lowest cash prices, it must be equally advantageous to extend the information to the other nine-tenths, since the increased expenses of Mr. D. for rent, clerk hire, &c., &c., will bear no proportion to the increase of business which constrains it. The time is not far distant when the city Merchant whose rent costs him more than his Advertising will be universally regarded as one who don't understand his business, and will not long have any business to understand.

—This train of thought was recalled just now by the sight of a note from Dr. Fitch of this city to Mr. V. B. Palmer, of whose universal Agency for Advertising throughout the country Dr. F. is wise enough to be a liberal patron. (Dr. Fitch is the author of a treatise on "The Causes and Cure of Consumption, which was reviewed with merited commendation on its appearance.) His letter to Mr. Palmer is as follows:

707 Broadway, N. Y., Oct. 8, 1847.

V. B. PALMER, Esq.—Dear Sir: Enclosed is the value of your accounts for advertising for me the last six months. Allow me to thank you for the perfect good faith and skillfulness with which the business of your Advertising Agency is conducted. Your thorough knowledge of the wants of all parts of this country renders your advice an excellent guide to any or all who propose to advertise. My experience in advertising as directed and conducted by you has been sowing shillings to reap dollars. Please accept my thanks, and my very best wishes. Respectfully yours, S. S. FITCH.

PHALON'S



BATHING AND HAIR CUTTING ROOMS,

FRANKLIN HOUSE,

197 Broadway,

CORNER OF BROADWAY AND DEY STREETS.

This Establishment, opened May 1843. is fitted up in every department, in the most beautiful style. The spacious Hair Cutting Hall. measuring 50 feet square. is floored with marble, and the furniture is rosewood and crimson velvet, with Italian marble wash stands and pier tables. The walls are elaborately painted. and every embellishment is of the richest and most *recherche* kind. Twelve large and sumptuously furnished BATHING ROOMS, provided with every appliance for the enjoyment of a warm, cold. or shower bath. open out of the main room, and every detail of convenience in the Hair Cutting, Bathing and Shampooing departments. has been carefully attended to.

One unique feature will commend itself to all lovers of cleanliness. A large clean penetrating hair brush is provided for every customer, and no brush is ever used more than once without being washed and thoroughly purified.

The WIG making business in which the advertiser has long enjoyed a favorable reputation, is still continued by him in all its branches.

This Establishment is also the depot for

Phalon's Chemical Hair Invigorator,

The best article for the toilet now in use. It clears the pores ; dissolves impurities ; keeps the hair moist ; prevents it from turning gray ; disposes it to curl ; renders it silky and glossy ; imparts to it a richer and darker hue ; prevents scurf and dandruff ; and preserves the hair through life.

To Ladies it is recommended as indispensable for the Toilet and the Nursery. Devoid of animal grease or essential oils, it leaves no stain upon anything with which it comes in contact.

AGENTS FOR

"LA VIEILLE MONTAGNE"

INC MINING COMPANY,

OF LIEGE, BELGIUM.

MOSSELMAN ZINC.

R. SAINT PAUL DE SINÇAY, Managing Director, Liege.

THE FRENCH ESTABLISHMENT, 12 RUE RICHER, PARIS.

GENERAL AGENCIES.

FOR THE UNITED STATES.
69 WALL STREET,
25 WILLIAM STREET,
NEW-YORK.

FOR ENGLAND AND SCOTLAND.
12 MANCHESTER BUILDINGS,
Westminster,
LONDON.

ZINC.

A metal, the smelting and manufacture of which have been brought almost erfection by the "Vieille Montagne" Company, is second to none other in usefulness.

The uses of Sheet Zinc, of various thicknesses and sizes, are so many and generally known that it is impossible and unnecessary to enumerate them utely here. The principal ones only shall be alluded to.

ZINC ROOFING.

A Zinc Roof, made of sheets weighing from about 20 to 24 ounces to the are foot, and laid according to the new European plan, costs very little more n a Tin one, and much less than any other metallic roof, requires no repairs, will last in any climate as long as the building itself which it protects is ected to last.

ZINC SHIP SHEATHING.

Zinc in sheets of the usual size, 14 by 48 inches, and from 27 to 35 ounces to square foot, has been long since used for sheathing vessels in Europe. It is v used freely in England for the same purpose; and several enterprising ship ners in the United States have lately made use of the same metal for sheathing sels in the Ports of New-York, Boston and Philadelphia.

Suffice it to say that a Zinc sheathing will last on an average *six years*, and cost nething less than *one-third* of the cost of Copper or Yellow Metal sheathing.

ZINC POINTS, NAILS AND SPIKES,

Equal in resistance and malleability to any Copper or Composition ones, are manufactured of any size and shape, namely,

Boot and Shoe Points,	½ in.	3500	to the lb.
Caulkers' Points,	¾ in.	322	do.
Roofing Nails,	1—1¼ in.	——	do.
Countersunk Sheathing Nails,	1¼ in.	150	do.
Nails for Wood Ship Sheathing,	2½—3 in.	——	do.
Spikes,	3 in.	and upwards.	

ZINC BOLTS,

For ship building, are made by the rolling process of any diameter and length, are fully as cohesive and resisting as Copper bolts, and more so than Brass ones, as has been ascertained by careful trials and experiments. These Zinc bolts have a decided advantage over Iron ones, they never corrode at the joints between the timbers.

ZINC PAINT.

A substance already extensively used in the United States for painting in general, and chiefly for painting iron railings, fire-proof doors, shutters and safes, sheet iron boats, &c. Also, as a substitute for White Lead in the manufacture of Metallic India Rubber and Gutta-Percha.

PERFORATED ZINC.

Sheet Zinc is pierced with holes, varying from the finest, 2500 in the square inch to ½ inch in diameter; and into numerous patterns, either plain or elegantly designed. The plain patterns are used for meat safes, shower baths, sieves, and revolving sifters in flour mills, and answer all the purposes of wire cloth. Also, by artists for painting, as a substitute for canvas. The designed patterns are suitable for centres and borders of window blinds, and screens.

ZINC WIRE

Is manufactured in 24 sizes or numbers, from 1, (thin,) to 24, (stout,) is exceedingly malleable, easily worked, and as resisting as iron wire, if used for the same work in the next thicker number; it does not corrode as Iron and Copper, requires no painting, can be substituted for those metals in the manufacture of wire cloth and trellis work, and is better fitted for tying vines, hops and wall trees.

MINETT & CO.,

Copal Varnish Manufacturers, No. 60 Pearl-St., New-York.

The great difficulty, in Copal Varnishes, hitherto has been, that the Varnish manufacturer has had but one, or at most two sorts of Varnish to offer for the varied purposes of the Artist, the Coach Painter and the Decorator. No painter, unless he can command time, and choice of work, can possibly give to the object of his labor an immediate appearance of being finished in the best style, or ensure a permanent good appearance, without a varnish suited to the particular job in hand.

TO COACH PAINTERS, HOUSE DECORATORS, &c.

We have a Coach-body Varnish, which we strongly recommend no painter (either coach or house) to be without, when he has a job which he wants to stand the test of time and weather. It will not, however, be suitable for all purposes, or for a job in a great hurry. This varnish, with an entire confidence, formed from experience in its use, we recommend also as being able, if properly used, to stand unchanged the hottest or the coldest climate—as the Southern part of our own States, the East or West Indies, Russia or the Canadas. It may be used also for fancy signs, expensive facias, &c., required to be preserved a length of time. It will stand sun, rain and exposure to the severest weather. We call this " **MINETT & CO'S EXTRA COACH-BODY VARNISH.**"

This varnish should be used without any drier, or mixture of any kind; but as time is seldom allowed for varnishing soundly, we have prepared a drier expressly to mix with this, and some other of our best varnishes, to which we have given the name of " **ELASTIC DRIER.**"

For **COACH BODIES, AND BEST OUTSIDE WORK,** *we have prepared this excellent and useful* **DRIER,** *which is so elastic that there is no danger of its cracking. This we believe to be the only drier that may be safely used in an emergency, in a large quantity, without diminishing the gloss, or interfering with the durability of the work, or in the slightest degree retarding or in any way affecting the polishing of our varnish. This desideratum of the artist and the workman being now attainable, it is hoped that the use of common Japan—for no other reason than that it dries quickly—will be discontinued. The addition of Japan to varnish has spoiled many a job that would otherwise have done credit to the workman.*

ON WHITE VARNISH.

Mastic Varnish is unsuitable for any work requiring durability, hardness, or fine finish. It is therefore very improperly used in house painting, in steamboats, or on walls. It is also inapplicable to articles of white furniture, but is excellently adapted for pictures, and delicate work on which a frequent renewal of the varnish may be required.

Mastic Varnish may be rubbed off surfaces like flour, and so easily, as to enable the artist to clean a picture, and free it entirely from any number of old coatings, any number of times, without removing or injuring the most delicate ground-work or hair-stroke of the painting.

WHITE OUTSIDE COPAL, AND COACH-PICTURE VARNISH.

The light straw color, which at first appears to belong to this varnish, ought not to deter the painter from its use, for as the job hardens, the color dries out, and the longer it has been done, the whiter and more transparent it becomes. The reverse of all this may be expected, if, as is too often the case, a soft, white, or milky varnish be used for the transitory effect of looking well at the moment of finish. In a short time the varnish loses its gloss, cracks, and rubs off. These results ought to be more generally known and better understood, and the varnish maker trusts he shall be excused for hinting that a timely explanation of these facts by the painter —to whom they are generally known—would prevent complaints and allay dissatisfaction.

Our " **OUTSIDE, AND INSIDE, WHITE VARNISHES**" *rub down and polish equal to the best coach-body.*

Of **WHITE INSIDE COPAL VARNISH** *we have several sorts: A quick-drying, solid polishing White Varnish, for white furniture, picture frames and small surfaces; a Varnish adapted for inside paint work, either large or small surface. This latter will bear rubbing and polishing, and allow the painter as much time as he may require to work and lead off. We have also a delicate flowing White Varnish not intended for polishing or rough usage. See our list.*

Our Varnishes will always be **IN A PURE STATE** *for the consumer, as they are kept in cisterns containing from 280 to 600 gallons each, and ranging in number from No. 1 to 97, in three separate places of storage. From this statement, persons favoring us with country orders, will see the propriety of stating as explicitly as is practicable, the purposes for which their varnish is required, that they may be supplied by us with the kind best adapted to their use.*

N.B.—For our fine old stock of **CABINET MAKERS'** *Varnishes, House Painters' Outside, Brown and Black Japan, &c., we refer to our printed list.*

DOREMUS & HARRIS,

ANALYTICAL, CONSULTING, & MANUFACTURING

CHEMISTS,

179 BROADWAY, New York.

R. OGDEN DOREMUS, A. M.
Chemical Assistant in the Medical Department of the New York University, and

C. TOWNSEND HARRIS, A. M.
Late of the Laboratories of Paris and Giessen,

Having associated themselves as Operative Chemists, are prepared to analyze every description of

ORES, MINERALS, SOILS AND MINERAL WATERS, SODA ASH, MANGANESE, BLEACHING POWDERS,

And all articles employed in the Arts and Manufactures.

TOXICOLOGICAL EXAMINATIONS

Made, and Analyses for the Medical Profession.

As CONSULTING CHEMISTS, D. & H. will give advice to manufacturers and artisans in regard to their processes, and will give personal attention to such processes when required; also to Mining and Metallurgic operations.

D. & H. will manufacture and keep on hand a stock of materials for DAGUERREOTYPISTS; also,

Pure Re-Agents for the Laboratory, and all kinds of APPARATUS used in laboratory researches.

C. TOWNSEND HARRIS,
R. OGDEN DOREMUS,
179 BROADWAY.

SCHOOL

OF

CHEMISTRY.

In view of the acknowledged influence which the

Science of Chemistry

must exercise upon the prosperity of this country, in the development of its

Agricultural, Mineral, and Commercial Resources,

and the want which is felt of a School in this section of the Union, where CHEMISTRY MAY BE TAUGHT PRACTICALLY, *the undersigned have fitted their Laboratory for the accommodation of Students, where the science will be taught under their own immediate supervision, and in which the same system will be adopted as is followed in the most celebrated*

EUROPEAN SCHOOLS.

Particular attention will be given to the instruction of Medical Students in

TOXICOLOGY,

and those branches of Chemistry more immediately allied to their Profession.

DOREMUS & HARRIS, Chemists,

179 Broadway.

RULES OBSERVED AT THE FOREGOING BANKS.

THE BANKS ARE OPEN every day in the year from ten A. M. to three in the afternoon, except Sundays, Christmas Day, New Year's Day, the 4th of July, and general Holidays, appointed by Legal authority.

THE INTEREST FOR DISCOUNT in the banks of this city, (with the exception of those marked *, *which are privileged to charge seven per cent.*) is fixed at Six per Centum per Annum, upon notes or bills not having 60 days to run. Three days of grace are allowed, and the discount taken for the same.

EVERY BILL OR NOTE OFFERED FOR DISCOUNT must be delivered into the office on the day preceding the day of discount, enclosed in a sealed cover directed to the Cashier, advising the name of the person upon whose account it is offered, &c.

BILLS OR NOTES LODGED AT THE BANKS FOR COLLECTION, are collected free of expense, except when protested for non-payment—the person lodging the same pays the charge of protest.

DEPOSITS OF MONEY, OR NOTES FOR COLLECTION, must be entered in the dealer's book at the time such deposit is made.

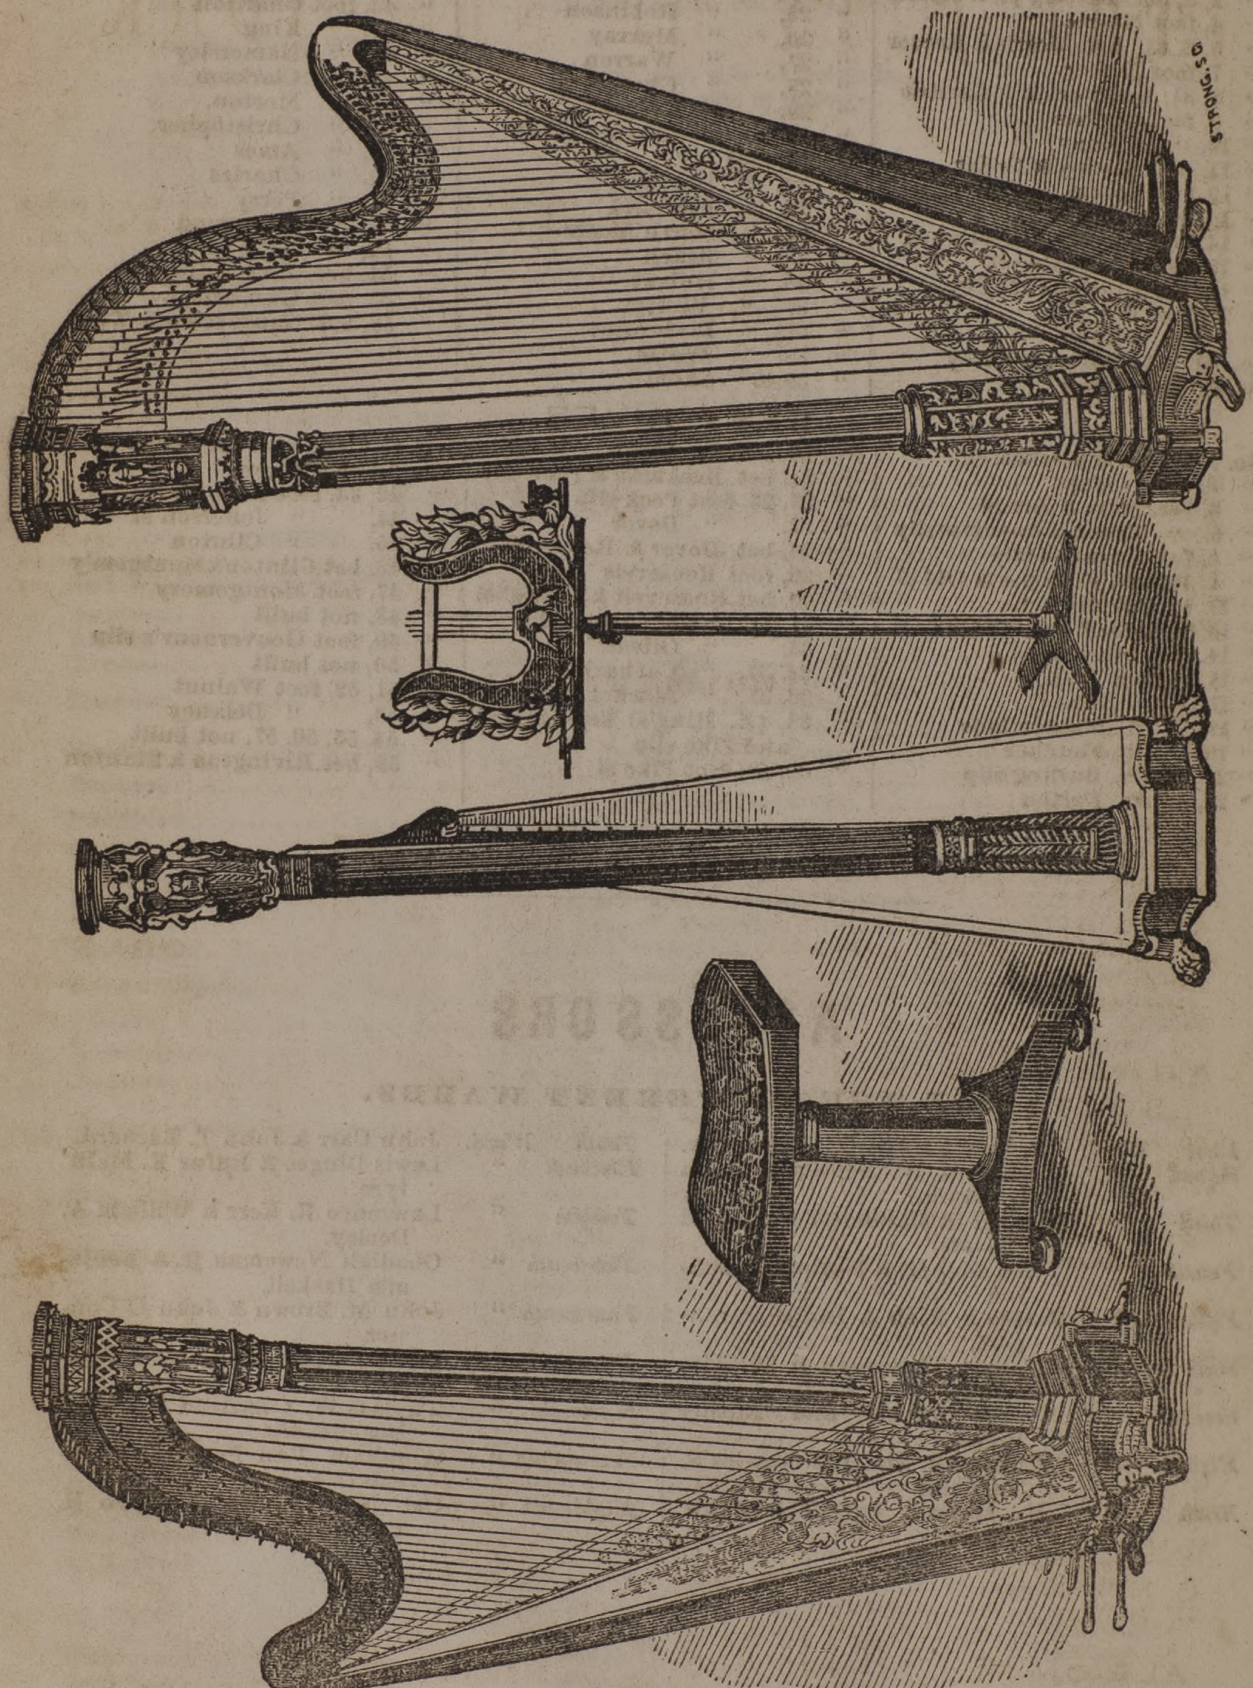
MAKERS AND IMPORTERS OF

DOUBLE-ACTION HARPS,

Ware-Rooms 295 Broadway and 56 Reade Street,

NEW YORK.—ESTABLISHED IN LONDON, 1810.



These Harps are constructed on the most approved principles, with all the modern improvements of London and Paris; especial care is taken to fit them for the extremes of climate in this country, in which respect they are far superior to any of European manufacture imported in the usual way. Their touch and tone are of the finest quality, and it is believed unequaled.

The opinion of the first Musical Talent in Europe and this country is respectfully submitted.

THE

STREET DIRECTORY

OF

THE CITY OF NEW-YORK.

(Corrected June 1, 1849.)

Entered according to Act of Congress, in the year 1849, by JOHN DOGGETT, JR., in the Clerk's Office of the District Court of the United States for the Southern District of New York.

EXPLANATION.

If you wish to find the location of any dwelling house or store,—for instance, No. 80 Allen street, on consulting the Street Directory, you will observe that 68 Allen is on the right-hand of that street and on the corner of Grand, and 88 Allen on the right-hand corner of Broome: hence the desired number, 80 Allen, will be on the right-hand side of Allen street, between Grand and Broome.

Or suppose that you are going up Broadway and wish to take a cross street so as to call at 128 Bowery; on examination (see Bowery) of the corner numbers in the Bowery, you will observe that 127 Bowery is on the corner of Bowery and Grand;—hence, by passing from Broadway through *Grand street* to the Bowery, you are opposite to the desired number, (128.)

NOTE.—The streets above Twelfth street are divided by Avenue 5th, into East and West—as *East* Thirteenth, *West* Thirteenth—and the streets located as above described will be found, therefore, in this work under *East* and *West*. Some have supposed that *Broadway divided these streets into East and West*—but it is a mistake.
