# GREENWICH POTTERY,

ESTABLISHED 1833.

## Nos. 415, 417, 419, 421, 423, 425, 427 & 429 W. 18th St.

## WASHINGTON I. SMITH,

*Manufacturer of*

## DRAIN PIPE, SMOKE, HOT-AIR, AND VENTILATING FLUES.

### Stone and Earthenware,

### STOVE BRICK, FIRE BRICK, CHIMNEY TOPS, GREENHOUSE TILE.

### FIRE CEMENT,

### Chemical and Druggists' Ware, &c., &c.

A large and extensive stock of DRAIN PIPE of the very best quality, together with all the necessary Branches, Bends, Stench-Traps, etc., constantly on hand.

This Pipe is peculiarly adapted and is extensively used, for the Street Sewers of Cities and Towns, Drains from Houses, etc., as also for the conveyance of Water to Mills, Factories, Railroad Depots, and Aqueduct purposes generally.

It is perfectly indestructible, lasting for ages, and is superior to, as well as much cheaper, than any other Pipe.

After an experience of thirty years, together with my improved machinery and facilities for manufacturing, the subscriber feels warranted in stating that he is enabled to offer a superior article, and on as reasonable terms as elsewhere.

Architects, Engineers, Plumbers, Builders, Contractors, House owners, and others interested, are invited to call and examine for themselves.

I also continue to manufacture

### *SMOKE and HOT-AIR FLUES,*

Peculiarly adapted to Public and Private Buildings, where a perfect Fire-Proof Fire or Conductor of Hot Air is a desideratum. It is infinitely superior to tin, and is afforded at about the same cost.

☞ Samples can be seen at the Pottery.—Circulars forwarded on application.

N. B.—DEALERS LIBERALLY DEALT WITH.

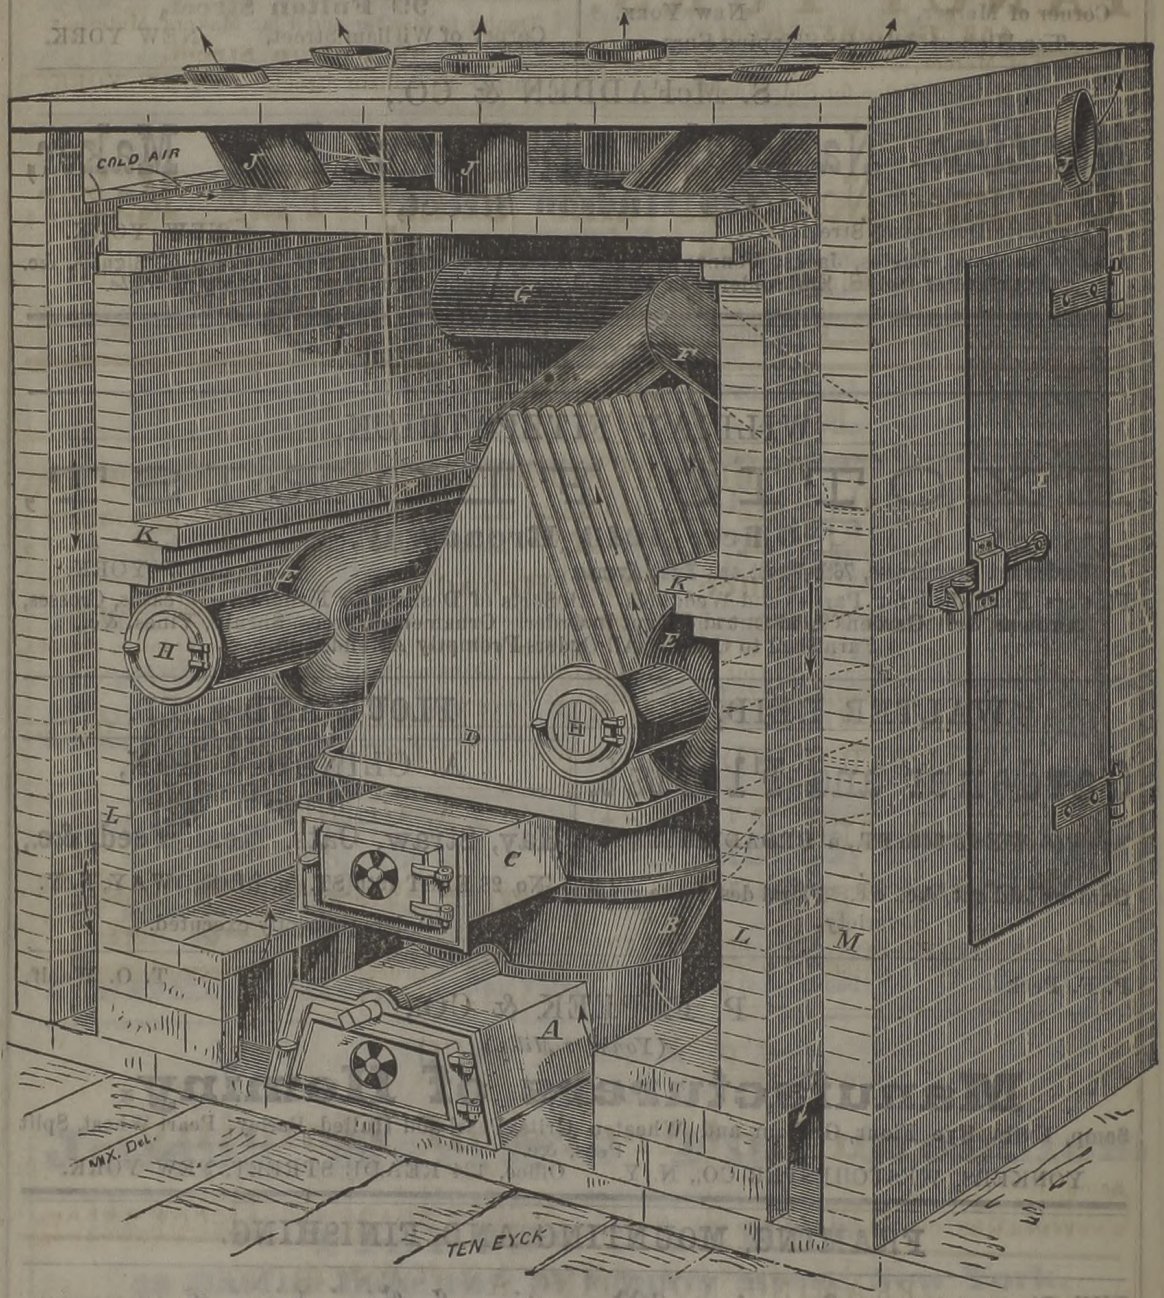
## FURNACES.

# THE GOTHIC FURNACE

## For Warming Dwellings, Churches, &c.



This is one of the most

***POWERFUL, ECONOMICAL and EASILY MANAGED***

Furnaces in use.

It overcomes the many objections usually given to Hot Air Furnaces, viz.,—of Red Hot Surfaces and Burnt Air.

## THERE CAN BE NO LEAKAGES OF GAS.

### ALL THE JOINTS ARE SAND JOINTS.

The following was written by J. J. THOMAS, Editor of the *Cultivator and Country Gentleman*:—"During the past twenty years I have tried a number of Hot Air Furnaces of different forms, and have found none equal to LESLEY'S GOTHIC FURNACE. The softness and purity of the air has been particularly observed by visitors."

# WILSON'S

# STREET AND AVENUE DIRECTORY

OF THE

# CITY OF NEW YORK.

CORRECTED MAY 1, 1869.

Entered, according to Act of Congress, in the year 1869, by JOHN F. TROW, in the Clerk's Office of the District Court of the United States for the Southern District of New York.

## EXPLANATION.

If you wish to find the location of any dwelling-house or store,—for instance, No. 80 **ALLEN** Street,—on consulting the Street Directory (*see* **ALLEN**) you will observe that 66 Allen is on the right hand of that street and on the corner of Grand, and 86 Allen is on the right-hand corner of Broome; hence the desired number, 80 Allen, will be on the right-hand side of Allen Street, between Grand and Broome.

Or suppose you are going up Broadway and wish to take a cross street, so as to call at 236 Hudson Street, on examination (*see* **HUDSON**) of the corner numbers in Hudson Street, you will observe that 230 Hudson is on the corner of Broome; hence by passing from Broadway through Broome Street to Hudson, you are near to the desired number, 236.

NOTE.—Such of the streets as are divided into East and West, will be found in this work under E. and W.

# CONYBEARE AND HOWSON'S

# Life and Epistles of St. Paul.

## THE ONLY COMPLETE AND UNABRIDGED EDITION.

**The Two Volumes of the London Edition in One, with the Text and Notes entire, and the Maps and Illustrations, at the reduced price of**

## THREE DOLLARS.

**Buy this Edition of the nearest Bookseller, and do not wait for Agents to visit you.**

The appearance of two abridged, and otherwise incomplete, editions of CONYBEARE & HOWSON'S LIFE AND EPISTLES OF ST. PAUL, has induced the publication of the original work, in a form and at a price which must bring it within the reach of every one who may desire to possess it. This volume, which is sold at the unprecedentedly low price of

**THREE DOLLARS,**

contains over ONE THOUSAND pages, giving the text of the original London edition entire, as well as all the notes. These notes, which are essential to the full understanding of the text, are greatly abridged, and frequently altogether omitted from the editions already referred to, thus seriously impairing the value of the work. The COMPLETE and UNABRIDGED edition moreover contains

## 17 MAPS (several of large size) and 82 ENGRAVINGS,

nearly double the number given in any other edition produced in this country. Published at less than half the price of the original two-volume American edition, and at just one-seventh the present price of the London quarto edition, this work, which has so long been regarded as one of the noblest contributions ever made to the literature of the New Testament, may be commended anew to all Biblical Students.

## NOTICES OF THE COMPLETE AND UNABRIDGED EDITION.

***From T. D. WOOLSEY, D.D. LL.D., President of Yale College.***

"I should regard the ORIGINAL WORK as far better than the most skilfully executed abridgment."

***From Rev. Prof. H. B. HACKETT, D.D., Bapt. Theological Seminary, Newton Centre, Mass.***

"It is superfluous to speak of the merits of this work. The full edition contains nothing which the authors did not regard as important to the illustration of their subject, and nothing can be left out without impairing the value of the work."

***From Rev. W. ADAMS, D.D., Pastor of Madison Square Presbyterian Church, N. Y.***

"It would be injustice to the authors and to their subject to attempt any abridgment of such a Work."

***From the New York Independent.***

"This edition includes the entire work, unabridged, and we should prefer it thus rather than Howson's own abridgment (People's Edition)."

BEST AMERICAN IRON;

the plates most exposed to the extreme heat are made extra heavy; the Oven Doors are made to swing, and not liable to break, as drop doors; having a long circulation of heat around each oven, they bake equal to a brick oven, require but a small quantity of fuel, and are therefore not so apt to get out of repair.
