PHELPS, JEWETT & CO. Furniture of every description. 266 Canal Street, New York.

Schultz & Warker's

MINERAL

SPRING WATERS,

CONCENTRATED

Standard Solutions,

FRENCH GLASS SIPHONS,

SIPHON-FILLING MACHINES,

TEN-GALLON

Glass Fountains,

etc., etc.

WE RESPECTFULLY INVITE THE ATTENTION OF THE TRADE TO THE FOLLOWING FACTS:

1. Our **Mineral Spring Waters** *are the only artificial Waters in this country* which have been submitted to the FIRST CHEMICAL AUTHORITIES OF THE UNITED STATES for *rigid analysis*, and which have been *proved by them to EXACTLY correspond* with the natural waters they represent. They have received the general and most flattering endorsement of the

Medical Profession of New York,

and are prescribed and depended on in all cases of sickness. They are furnished in French Glass Siphons, Stoppered Bottles, and Ten-Gallon Glass Fountains, and comprise the whole range of leading natural Waters.

2. Our **Lithia** and **Vichy with Lithia Waters** are prepared after our own formulas, published over five years ago. We have been the first to introduce them in medical practice, and preparations of other manufacturers bearing that name can therefore be nothing but imitations, as Garrod's formulas of those Waters are kept a secret.

Fig.1

Fig.2

3. We have been the first to introduce **Concentrated Standard Solutions,** with instructions for their use, for the purpose of enabling parties of other cities to prepare Mineral Waters which should correspond *with ours*, with a saving of *ninety per cent.* of expressage.

4. As our *Mineral Spring Waters* and *Concentrated Standard Solutions* are furnished as *cheap as any of their imitations*, parties who wish to buy, or prepare *reliable* Mineral Waters will, therefore, consult their own interest by selecting those which enjoy a scientific reputation, especially at a time when flourishing advertisements of common bottlers and drivers, and their associates, are apt to mislead the unwary.

5. Our **French Glass Siphons** have furnished proof of their superiority by many years' constant use, and by their SUCCESSFUL introduction, *on a large scale*, in the principal cities of the United States, viz., Philadelphia, Boston, Chicago, Louisville, St. Louis, Memphis, Savannah, Mobile, etc.

6. Our **Siphon-filling Machine,** being made after the most approved French model, will fill better and speedier, and is therefore more economical, than any other.

7. Our **Ten-gallon Glass Fountains** (Price reduced to $75.00) *and other Apparatus* were awarded, by International Jury Verdict of *Great Paris Exposition,*

A SILVER MEDAL,

being the highest prize of *all nations* awarded for Soda-Water Apparatus, *no* other Soda-Water Apparatus from the United States receiving any prize or award *whatever.*

These Fountains have been also awarded

A GOLD MEDAL

by the American Institute. They are made by J. Matthews, under our Letters patent.

These are the ONLY Fountains in which Soda and Mineral Waters can be kept on draught *without getting impregnated with poisonous metallic salts.* A trial of six years has proved them very durable. There is no re-tinning about them.

PRICE-LIST of our Articles, with Chemical Examinations of our Mineral Waters, are sent free of charge.

This Pipe is peculiarly adapted and is extensively used for the Street Sewers of Cities and Towns, Drains from Houses, etc., as also for the conveyance of Water to Mills, Factories, Railroad Depots, and Aqueduct purposes generally.

It is perfectly indestructible, lasting for ages, and is superior to as well as much cheaper, than any other Pipe.

PROSPECTUS FOR 1871.

FOURTH YEAR.

THE ALDINE:

An Illustrated Monthly Journal of 16 *pages, claimed to be the handsomest paper in the world.*

PUBLISHED BY JAMES SUTTON & CO., 23 LIBERTY ST., N. Y.

The object of *The Aldine* is to furnish a medium which shall be a fit exponent of progress, and of the beautiful in Printing and the kindred arts. The latest and most improved machinery, and the very highest order of mechanical and artistic talent shall be taxed to the utmost to produce a sheet—as nearly as possible—perfect in typography and illustration. While it is intended that the appearance shall be unexceptionable, no pains will be spared to keep the literary matter, original and selected, equal to the best.

The *unequaled excellence* of the *Wood-Cut Illustrations*, published in the pages of *The Aldine*, has elicited the commendation of the European as well as the American press, and has been hailed as the commencement of a new era in the history of Illustrated Journalism.

During the year the publishers will present to the patrons of *The Aldine*, the rarest specimens from the pencils and gravers of the foremost artists of the world; and, while the illustrations may be counted by scores, the volume shall contain nothing that is not of permanent value as a work of art.
