PHELPS, JEWETT & CO. Furniture of every description 266 Canal Street, New York.

THE IRON AGE.

A REVIEW OF THE

Hardware and Metal Trades.

A weekly newspaper devoted to the interests of the Hardware, Iron, and Metal Trades of the country.

In extent, accuracy, and general usefulness of its Market Reports and Quotations of Prices of Goods pertaining to its specialty, comparison is challenged with any other publication in the world.

It has become the recognized organ of its Trade, and neither labor nor expense will be spared to maintain its preëminence.

New Goods, new Processes, and new Inventions that come within its sphere, are fully treated of and frequently illustrated.

In fine, it is intended to make it in every respect a complete and high-toned commercial newspaper, giving its readers full and accurate information on all subjects—domestic and foreign—interesting to the trade or important to be brought to their knowledge.

Experience has shown its usefulness—I may almost say necessity—to any Hardware and Metal house that has taken it, a fact proved by the uniformity with which subscriptions are renewed, and also by hundreds of unsolicited testimonials from all parts of the country.

Published every Thursday morning, at No. 80 Beekman Street, New York.

SUBSCRIPTION, $4 A YEAR.

SINGLE COPIES, 10 CENTS.

Sample Copies sent free by Mail on application.

ADVERTISING RATES:

My Delicious Concentrated Saccarine Syrup is excellent when used with Hot Cakes, Puddings, Deserts, Strawberries, Pineapples, Oranges, Peaches and all canned Fruits—and in Wines and Cordials—and for Coughs, Colds, Bronchitis, or for Invalids, Infants, or Dyspeptics it is indispensible. I shall keep this article at a uniform standard of excellence, and I trust that its simple purity and acknowledged healthfulness, its unrivalled flavor and delicacy, and its great convenience and economy, will win for it, as I believe it deserves, the foremost place among all syrups intended for similar purposes. WILSON'S

STREET AND AVENUE DIRECTORY

OF THE

CITY OF NEW YORK.

Corrected May 1, 1871.

Entered according to Act of Congress, in the year 1871, by
JOHN F. TROW,
In the Office of the Librarian of Congress at Washington.

EXPLANATION.

If you wish to find the location of any dwelling-house or store,—for instance, No. 80 **ALLEN** Street,—on consulting the Street Directory (*see* **ALLEN**) you will observe that 66 Allen is on the right-hand of that street and on the corner of Grand, and 86 Allen is on the right-hand corner of Broome, hence the desired number, 80 Allen, will be on the right-hand side of Allen Street, between Grand and Broome.

Or, suppose you are going up Broadway, and wish to take a cross street, so as to call at 236 Hudson Street, on examination (*see* **HUDSON**) of the corner numbers in Hudson Street, you will observe that 230 Hudson Street is on the corner of Broome; hence by passing from Broadway, through Broome Street to Hudson, you are near to the desired number 236.

NOTE.—Such of the streets as are divided into East and West, will be found in this work under E. and W.

The New Family Sewing Machine!

294 BOWERY. **EMPIRE** 294 BOWERY.

The extraordinary success of their New and Improved Manufacturing Machines, for light or heavy work, has induced the Empire Sewing Machine Company to manufacture a **NEW FAMILY MACHINE** of the same style and construction, with additional ornamentation, making it equal in beauty and finish with other Family Machines, whereas in usefulness it far outstrips all competitors.

It has a Straight Needle, Perpendicular Action, makes the LOCK or SHUTTLE STITCH, which will neither RIP or RAVEL, and is alike on both sides; performs perfect sewing on every description of material with Cotton, Linen or Silk Thread, from the coarsest to the finest number.

It Hems, Fells, Binds, Braids, Tucks, Quilts, Plaits and Gathers.

☞ ***As a Family Sewing Machine it has no superior.***

SPECIAL ATTENTION IS CALLED TO OUR

Nos. 2 & 3 Manufacturing Machines.

They have been thoroughly tested on every description of Cloth and Leather Work, running by Steam Power at the rate of 1,200 STITCHES PER MINUTE, producing more than double the work of any other Shuttle Machine now in use; the stitch is tight, uniform and beautiful; they are simple in construction, easily understood, and not liable to get out of order, run light, and are comparatively noiseless.

For Tailoring or Leather Work, we claim that they are not only equal but much superior to any other Machine that has ever been offered to the public.

LENGTH OF ARM OF MACHINE.—No. 1, 6 inches. No. 2, 8 inches. No. 3, 12 inches.

COOKING RANGES

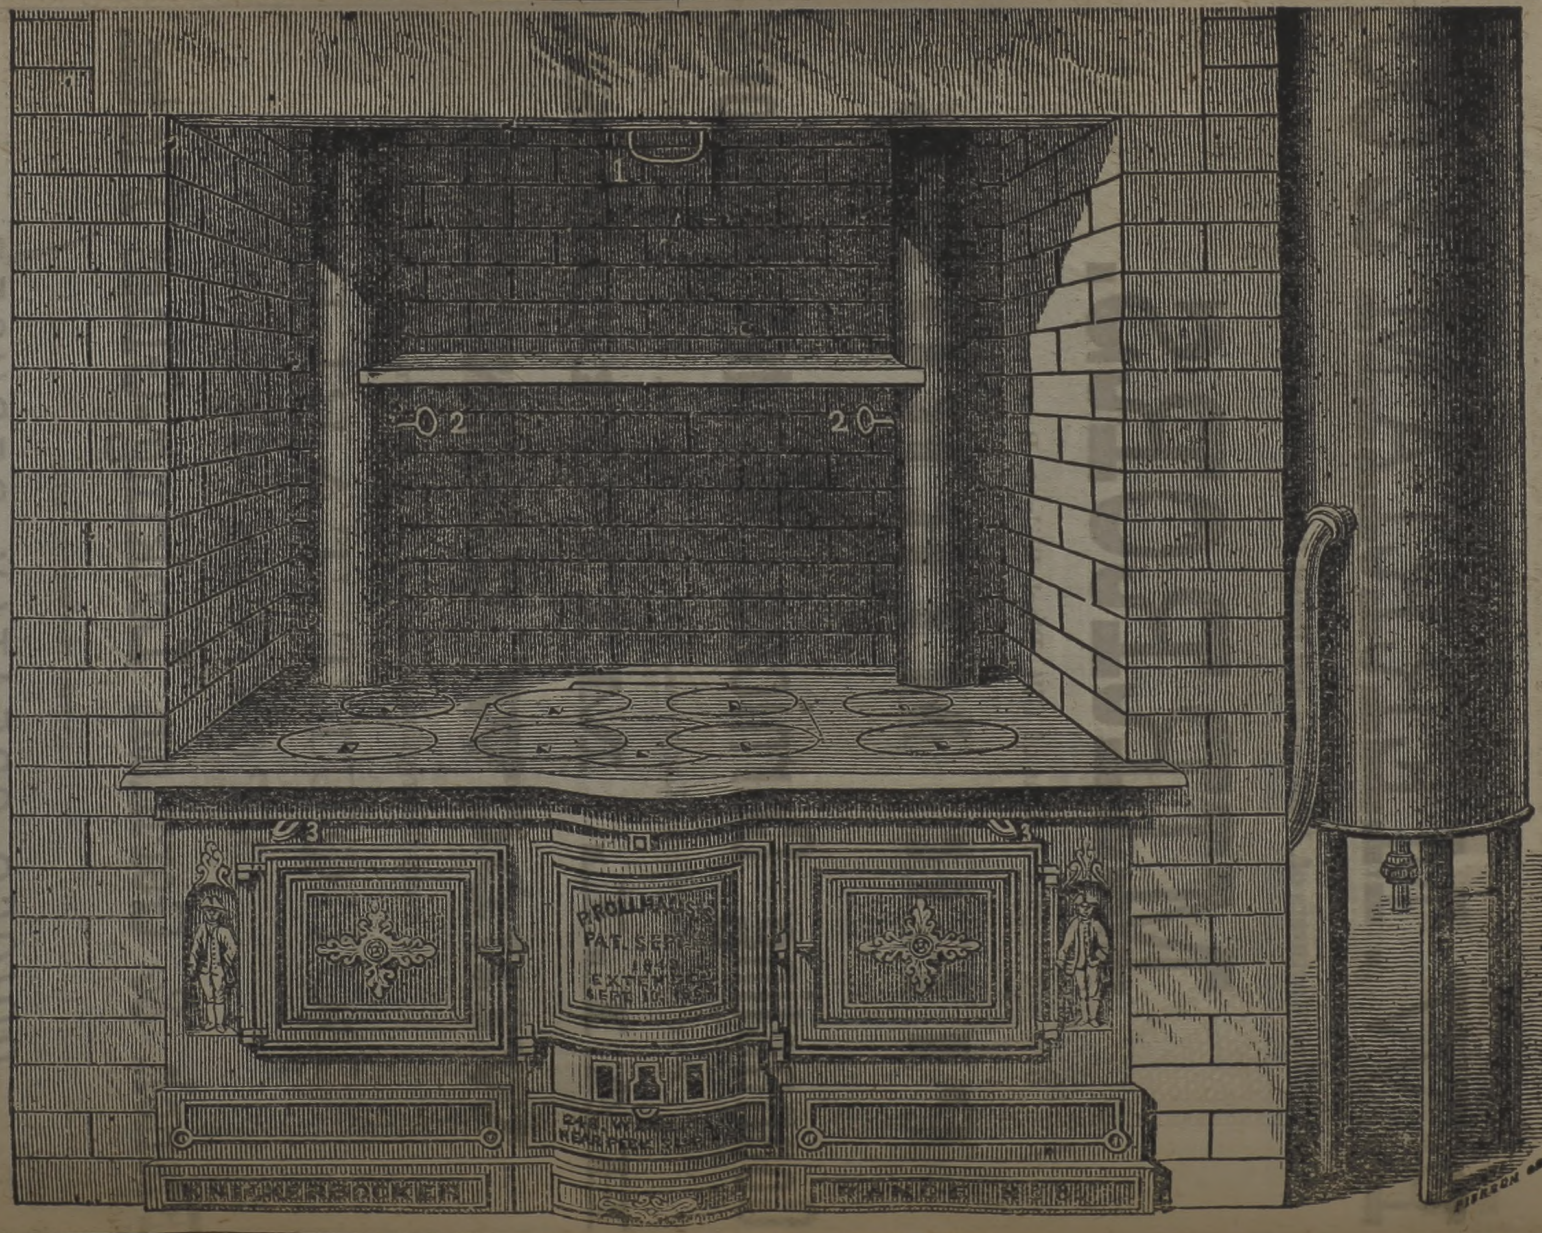
EIGHT SIZES,

ADAPTED FOR

Private Families, Boarding-houses, Dining Saloons and Hotels.

These ranges have, for neatness, durability, and economy, not as yet been surpassed by any article of the kind. The external appearance of them is neat; are cast of the

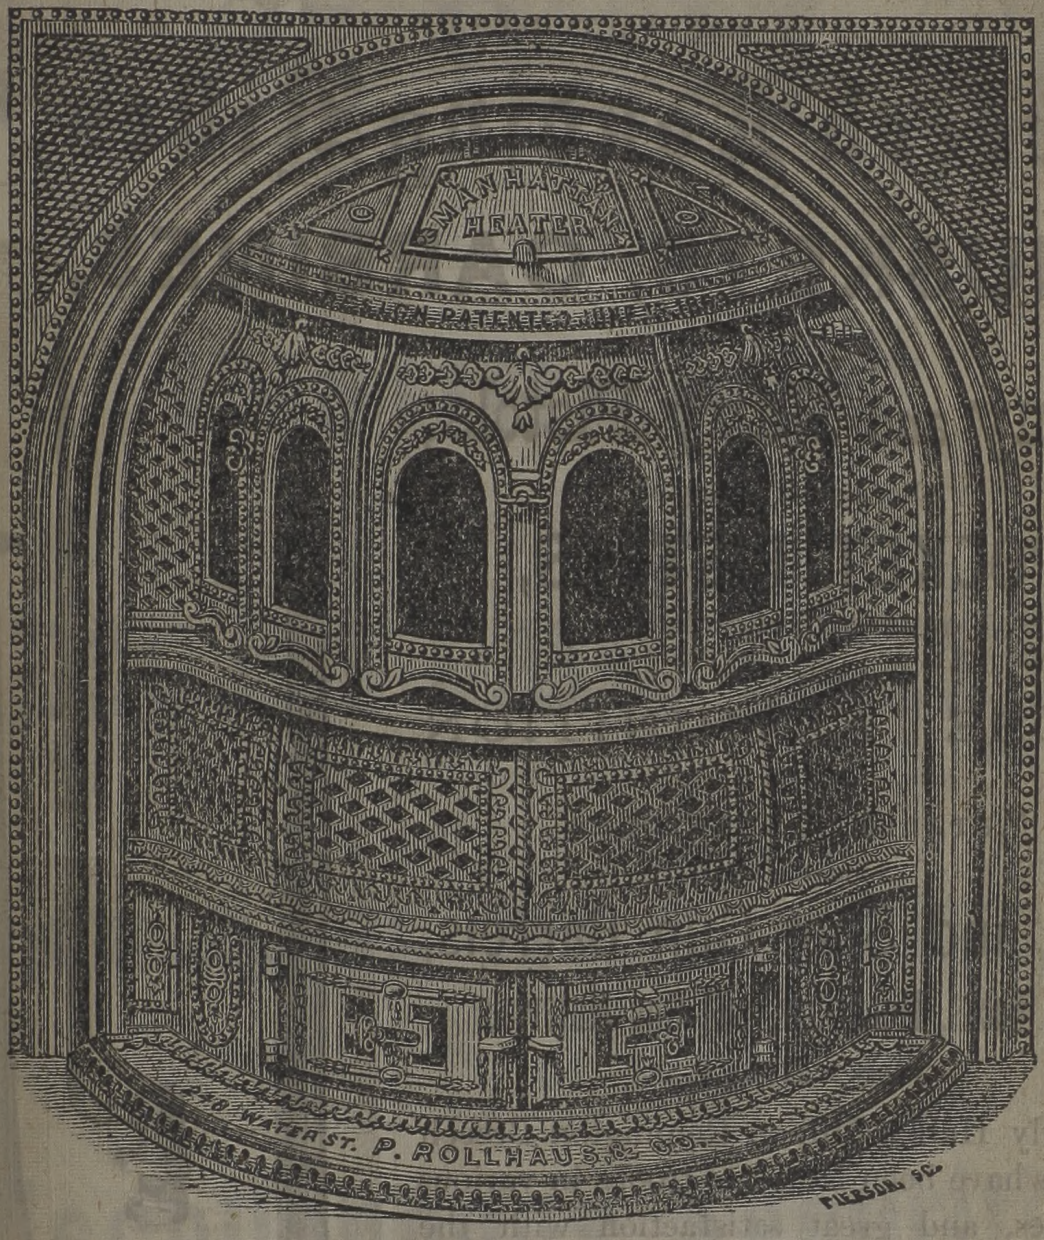
BEST AMERICAN IRON;



the plates most exposed to the extreme heat are made extra heavy; the Oven Doors are made to swing, and not liable to break, as drop doors; having a long circulation of heat around each oven, they bake equal to a brick oven, require but a small quantity of fuel, and are therefore not so apt to get out of repair.

References to persons who have them in use in any part of this and the neighboring cities, may be selected at the Salesroom,

248 *WATER ST.*,



Near Peck Slip,

NEW YORK.

MANHATTAN ILLUMINATING
FIRE-PLACE HEATER.

The undersigned respectfully introduce to their customers, and the public generally, their newly constructed PATENT FIRE-PLACE HEATER.

Besides experience and practical knowledge, no time or expense have been spared to make it, as the above Cut represents, externally a neat and tasteful piece of furniture.

The internal arrangement in its different departments is such that it is destined to introduce itself (the same as the Knickerbocker Range) into general use and become a permanent article.

It can be put up with or without a self-feeder. (Magazine.)

Cold air may be admitted from without, or direct from the room it occupies, according to circumstances.

ELECTRICITY.

THE daily uses of Electricity are becoming more numerous and urgent. In our commercial, mechanical, and social relations it forms a most important chapter—so important, indeed, that its loss would arrest our noblest achievements and annihilate all hope of a brilliant future. In these relations its value is immeasurably great. Yet another mission, more elevated and humane, awaits it. It here appeals to humanity at large, and whispers words of hope and comfort.

CHEAPEST BECAUSE BEST.

THE

MASON & HAMLIN

CABINET ORGANS

Derive that *demonstrated superiority* which has *uniformly won* for *them highest* awards at *Industrial Exhibitions*, including the Medal at the Paris Exposition, and obtained *the decided preference of Musicians generally*, nearly one thousand of whom have given public testimony that they are unequaled (See Testimonial Circular), and which has given them a European as well as American reputation, from

1. Scrupulous, almost fastidious selection and use of only the best material for every part.

2. Peculiar skill in construction, and especially in voicing; the most difficult and important art in the construction of such instruments.

3. The employment of every improvement, wherever originated, including a number of patented improvements, used exclusively in these organs. Determined that their organs shall always represent the highest accomplishments of inventive genius and skill in this department, the use of every real improvement, effected in any part of the world, is obtained by this Company.

4. Inflexible maintenance of the highest standard of excellence. All their work is thoroughly first-class. Every instrument will be found, according to its style and capacity, the very best.

IMPROVEMENTS THIS SEASON.

The Mason & Hamlin Organ Co. have the satisfaction of announcing the introduction this season of several improvements, one of which they regard as the most important ever effected in Cabinet Organs. It is an invention of Mr. Carl Fogelberg, by which the union of pipes and reeds, so long sought for by organ-makers, is successfully accomplished. Particulars will be found in the Catalogues and Circulars of the Company.

A TESTIMONIAL CIRCULAR will be sent free to any one desiring it, containing the testimony of

NEARLY ONE THOUSAND MUSICIANS, including a large portion of the most eminent in America, to the superiority of these organs.

The following are specimens from several well known artists:

From THEO. THOMAS,

Conductor and Director "Theo. Thomas' Orchestra."

The Mason & Hamlin Cabinet Organs are, in my judgment, much the best instrument of the class made, either in this country or in Europe. They excell especially in richer, better qualities of tone. The recent improvements, such as Resonant Cases, Vox Humana, etc., are of great value.

A wide acquaintance with musicians enables me to say that they generally regard the Mason & Hamlin Organs as unequalled by any others.

THEODORE THOMAS.

From SAMUEL P. WARREN,

Organist of Grace Church, New York.

I have always taken great pleasure in testifying to the merits of Messrs. Mason & Hamlin's Cabinet Organs, which for purity and evenness of tone, as also for elegance of finish and appearance, I cannot but consider unrivalled. The recent introduction into them of the so-called Vox Humana stop, a mechanical contrivance causing when in operation a delightful tremolando as also a change in the quality of tone, enhances them doubly in my estimation for the still greater variety of effects that may now be produced by the player. S. P. WARREN.

From CARL ZERRAHN,

Conductor of the Orchestra Union, Handel and Haydn Society, etc., Boston.

It gives me pleasure to say that I think your Organs are much the best of the class made; excelling in quality of tone, general excellence, and durability, and presenting valuable improvements not found in others. Long acquaintance with, and frequent opportunities for testing and comparing them with others, enables me to give this opinion with confidence. I believe the wide introduction and use of such instruments is doing much for popular musical cultivation, and to render possible Musical Festivals still more mighty than that which we have recently so much enjoyed in Boston. CARL ZERRAHN.

From JOHN ZUNDEL,

Organist of Rev. Henry Ward Beecher's Church.

Your CABINET ORGAN surpasses anything in this line I have yet seen, whether French or American, in every respect. JOHN ZUNDEL.

From ANNA MEHLIG,

The distinguished Pianist.

The reputation which the Mason & Hamlin Cabinet Organs enjoy as the best instruments of the class made is, I think, well deserved. ANNA MEHLIG.

From MAX MARETZEK,

The well-known Impresario.

In regard to your Cabinet Organs, I desire to say that no musician who will examine carefully can doubt that the best reed instruments in the world are made in the United States, and that your Cabinet Organs are greatly superior and by far the best made here. I speak from experience in their use, both at the Opera, in the Academy of Music, and in my own house. MAX MARETZEK.

From Mr. MILLS,

Of New York, the distinguished Pianist.

In all those qualities which constitute excellence I regard your Cabinet Organs as unrivalled. Such pure musical tones, promptness and smoothness of action, and fine variety of effect, I have not found in any other instrument of the class. Your Cabinet Organs must become widely popular, I am sure; certainly I shall recommend them as the best whenever my opinion is asked, because I cannot conscientiously do otherwise. S. B. MILLS.

From GEO. WASHBOURNE MORGAN,

The eminent Organist of New York.

In every respect they are far superior to anything I have ever seen of the kind, either in Europe or America, and you may depend on my taking every opportunity of recommending them.

GEO. WASHBOURNE MORGAN.

☞ Having greatly increased their facilities for manufacture, by the introduction of new machinery and otherwise, the MASON & HAMLIN ORGAN CO. are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least remunerate profit, they are now offering at PRICES of INFERIOR WORK. FOUR OCTAVE ORGANS, Plain Walnut Case, $50. FIVE OCTAVE ORGANS, Double Reed, Solid Walnut Case, carved and panelled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.

Circulars, with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free, and postage paid, to any one desiring them.

GUANACO. Throughout the range of the Andes Mountains, from within two degress of the Equator to the low swampy lands of Terra del Fuego, a most beautiful animal is found, known as the GUANACO. Its fleece, or hair, is very fine and lustrous, remarkably free from MOTHS, TICKS, or other PARASITIC INSECTS, and perfectly IMPERVIOUS to water. The natural peculiarities of this fleece (or hair) have enabled the patentees to produce a beautiful UMBRELLA COVERING, perfectly WATER-PROOF and FAST COLOR. It is also in appearance like fine SILK, and although the cost is only about one-third that of a good quality of umbrella silk, it is far more durable.

The frames or ribs used in these Guanaco Umbrellas are made by Fox, the PARAGON manufacturer of the world.

The handles (or staffs) are the newest and most beautiful styles, of one piece, WITHOUT ANY JOINT WHATEVER, consequently NO HEAD TO FALL OFF. The patentees beg to assure the public that in the manufacture of these goods they employ only the most experienced workmen. The "GUANACO" Umbrella as now made is the "MOST BEAUTIFUL," the "MOST DURABLE," and the "CHEAPEST." All GENUINE "GUANACO" Umbrellas have the name "GUANACO" distinctly on the inside.

REJECT ALL OTHERS AS IMITATIONS. For sale by all first-class merchants. **BEWARE OF COUNTERFEITS.**
