FIRST-CLASS REFERENCES IF DESIRED

FACSIMILE LETTERS

THIS method of business publicity **HAS PROVED MORE DIRECT, ECONOMICAL AND BENEFICIAL IN PRODUCING RESULTS** than heretofore has been the case, as the advertiser is enabled to call the individual attention of the consumer to his goods and prices in a direct manner and in a way that is certain to attract attention; by selecting the class of people most likely to require what he has to sell **LARGER RETURNS RESULT** than when advertising promiscuously.

Our system of producing Facsimile Letters is the best yet devised. Samples of our work will be sent on application.

We are also prepared to furnish lists of all kinds of names compiled from data of recent date, address envelopes, fold, insert and mail all kinds of mailable matter in a rapid and economical manner.

A letter or telephone call (1100 Orchard) will bring our representative to you prepared to suggest methods and submit prices.

Yours very truly,

A NO. 1 ABDOMINAL APPLIANCES.

TORTURE-TRUSSES

WHY DO YOU WEAR TORTURE TRUSSES LIKE THESE SHOWN HERE?

Above is shown the torturing Elastic Truss generally fitted with water pads—with leg-straps that pull the pads on the pelvic bone, leaving the real opening of Rupture unprotected. The Belts around the body often have to be made so tight as to cut into the sides as shown, and yet fail to hold.

Do not continue to torture yourself with a Belt Truss like the above.

See How Belt Cuts

See How Spring Cuts

Above is shown the criminal Spring Truss with its pads made to press on the bone and on parts not connected with the Rupture at all. If you have a Spring Truss, try to hold it apart as if on your body, and then you will know what unnecessary and harmful pressure is exerted by such a Truss.

Do not any longer wear a criminal Spring Truss like this.

The Faults and Dangers of Wearing Torture Trusses more fully explained in my Book or on examination.

Comfort and Cure at SMALL COST

Think of the Suffering and the trouble spared if you could get your Rupture HELD WITHOUT the cutting Belts, leg-straps and springs,—if you could do your work in comfort and freedom, with the full knowledge that you were as SAFE as if you never were ruptured, and with a CURE made possible for you AT LAST. All this is assured with my Guaranteed Truss without Belts.

My Invention Solves the Problem

and you will be convinced of this wonderful truth THE VERY MOMENT I fit you or after you have read my FREE book, which I gladly mail to all writing for it. I state FACTS only, and show photographic illustrations of my appliance, guaranteed to hold ANY Rupture, including the very worst cases. SMALL COST. No springs. No leg-straps. May be worn in bath or while bathing. Most durable and cleanly. My 40 page descriptive Book, with Order Blank, eminent Surgeons' Testimony and copy of "Your Neighbor's Word," containing 3,500 testimonials—some may be from your own gratified neighbors — all mailed in plain, sealed envelope for the asking.

Perfect Fit

is assured at ONE visit to this office or through information answered on our Order Blank.

The Truth

and nothing but the Truth is stated in my Book. No matter where you live call or write for it.

Hours 9 to 5; Saturdays till 1 only; Closed Sundays.

A NO. 1 CHIMNEY EXPERTS.

We Absolutely Guarantee to Cure All Smoky and Defective Chimneys, Fireplaces, Ranges and Furnaces, Make the Draughts Perfect, and Avert Any Inconvenience Arising Therefrom—or No Pay.

After seventy years of practical experience in renovating chimneys under all conditions, no flue will ignite if we have charge of it and our advice is followed. The flues in danger of igniting are: flues of fireplaces where wood is used altogether; the ventilating ducts or flues which carry off the odor of cooking connected to a hood over the ranges; the boiler, range and the bake-oven flues.

Where chimney-caps are used soot will accumulate in the flues twice as fast as where none are used. Flues in use should be cleaned once a year. Where soft coal is used daily during the season, and should the flues of the fireplaces have chimney-caps on the chimneys, the flues should be cleaned twice a year; when not used should be cleaned every 5 years, as sand will accumulate. If your house is near, next to, or surrounded by tall buildings, your chimneys will be exposed to down-draughts which will cause wind, soot, smoke and coal-gas to blow down the flues and pervade the entire house when the fires are made.

Should the flues used for fireplaces, ranges and furnaces be too small in diameter, the draughts will be sluggish, and smoke and coal-gas will enter the rooms. Very often the flues or ducts used in connection with hoods over the ranges to carry off the odor of cooking are too small in diameter, causing the odor to pervade the entire house. Should the flues be adequate, improperly built fireplaces will cause smoke and coal-gas to enter the rooms when in use. If your chimneys have been thoroughly cleaned in every particular and the flues are troubled with down-draughts, the soot drawn up the flues while removing it from the fireplaces will blow down into the fireplaces and out into the rooms more or less when the down-draughts prevail; and should it occur when the flue has a chimney-cap, of what good is the cap? We have made a study for years of chimneys and chimney-caps. We make a specialty of this particular line. Our men are first-class mechanics, thoroughly competent, reliable and unexceptionally clean about making dirt when altering fireplaces, renovating furnaces and ranges, and cleaning chimneys. We have every convenience to insure perfect and clean work. We absolutely guarantee to make the draughts.

If your chimney expert fails to effect a cure do not think it is impossible. Send for us and we will guarantee a cure. We know just what and how to do when the conditions we named above arise or exist.
