JOHN MORGAN,

SUPERIOR MINERAL WATERS,

343 to 347 W. 39th Street,

NEW YORK.

PURE
Mineral Waters.

VICHY,
IMPROVED
CARBONIC WATER,
SELTERS,

PULLNA WATER,
KISSINGEN,
CITRATE OF
MAGNESIA.

ORDERS RECEIVED BY FIRST MAIL WILL RECEIVE PROMPT ATTENTION SAME DAY.

The Manufacturer begs leave to announce to his patrons and the trade, that in order to readily distinguish the different grade of Mineral Waters, the color of labels on the Siphons are:

Selters, BLACK. Vichy, MAROON. Carbonic, BLUE.

I have adopted the above colors in order that my patrons cannot be deceived by other manufacturers selling waters labelled with the same colors which I adopted several years ago.

Any infringement on the new labels, for which a copyright has been applied, will be dealt with according to law.

DO NOT READ THE OTHER SIDE OF THIS LEAF.

JOHN MORGAN,

MANUFACTURER OF

SUPERIOR MINERAL WATERS,

takes pleasure in calling attention to the following communication from Prof. Chandler, late President of the Board of Health of New York City:

"The bearer, Mr. George C. Stone, is making for me analysis of water in use in Mineral water in the city for the manufacture of Mineral waters. Please furnish him with a sample of the water used by you, and oblige

C. F. Chandler, President Board of Health."

Having complied with the above request, and as a result of the analysis of the water submitted, I received the following communication:

Chemical Society, Columbia College.

"I have analyzed the sample of water which I took personally from your place, with the following results:

Mineral salts, - - -	2.89 grs. per U. S. gallon.
Organic and volatile matter, -	0.6 " " "
Free Ammonia, - - -	0.4 parts per million.
Albuminoid Ammonia, - -	0.11 " " "

At the time I made the above analysis I also made the following analysis of Croton water, drawn directly from the taps of the School of Mines:

Mineral salts, - - -	3.2 grs. per U. S. gallon.
Organic and volatile matter, -	0.5 " " "
Free Ammonia, - - -	0.05 parts per million.
Albuminoid, - - - -	0.11 " " "

George C. Stone, Ph.B."

Further analysis to ascertain the purity of the water brought forth the following gratifying results:

Columbia College, Chemical Society.

"JOHN MORGAN, Esq., The sample of water submitted to me contains the following:

Total solid residue, -	2.21 grains.
Organic Prolatile matter, -	0.58 grains per U. S. gallon of 231 cubic inches.
Free Ammonia, - -	0.07 parts per million.
Albuminoid - - -	0.11 " " "

Yours respectfully, Nath. Hartaway, Chemist."

The manufacturer desires to draw attention to a few simple rules, the observance of which will serve to produce the best results of the water:

1. Siphons when first delivered, should not be laid on ice.
2. When left in the refrigerator there should be a space between the ice and the Siphon.
3. Consumers should be careful to have the water chilled before putting the Siphons on ice, as a sudden change of temperature frequently leads to breakage of the Siphons.

Respectfully yours,

JOHN MORGAN,

343 to 347 W. 39th Street.

THE PACKARD
SCHOOL OF STENOGRAPHY

is the recognized shorthand school of America, and the authorized headquarters of Munson Phonography. It has put more young men and young women in first-class places during the past year than any other school or agency, and has given the best satisfaction to the public.

The delightful appointments of this school, its elegant apartments, with unequaled light and ventilation; its perfect system of instruction, covering the entire field of knowledge required by the practical stenographer, and its standing in the community render it in all respects worthy of patronage.

Mr. James E. Munson, Court Reporter for the past 25 years, and author of the leading system of shorthand in this country, says of it:

"The Packard School of Stenography, as at present conducted, comprises the best there is in shorthand teaching. I have had occasion to examine critically the methods pursued there, and the results attained, and speak of my own knowledge. . . . In establishing such a school of shorthand, where learners may acquire a practical knowledge of exactly the same phonography as that used by me in my daily practice in actual reporting, Mr. Packard has accomplished that which I have long wished to see done. The Packard School has thus become, and is, the recognized headquarters of Munson Phonography."

THE SCHOOL OF BUSINESS

WHICH ALL INTELLIGENT NEW YORKERS COMMEND IS

PACKARD'S BUSINESS COLLEGE,

Now located on the corner of Twenty-third Street and Fourth Avenue.

This school was established in 1858, and has been the leading school for practical education in the city during its entire history. It has graduated over five thousand pupils, and had in attendance in its different departments, over fifteen thousand. Its former pupils are now occupying positions as Merchants, Bankers, Lawyers, Railroad Men, Accountants, Teachers, Preachers, Congressmen, Editors, and workers in all the useful enterprises of this great country; and wherever they are, and whatever they do, they are loyal friends of the school.

The increased facilities which have been secured by removal to the new quarters in the reconstructed building formerly occupied by the College of Physicians and Surgeons, has enabled the proprietor to add many new features and to greatly improve the course of instruction.

An illustrated circular is published, wherein all the points of the school are fittingly set forth, which will be sent on application to
