FAC-SIMILE LETTERS

MODERN methods of business publicity have developed a system of advertising that has proven more direct, economical and beneficial in producing results than heretofore has been the case, we refer to the fac-simile letter. By this method the advertiser is enabled to call the individual attention of the consumer to his goods, qualities and prices in a direct, concise and comprehensive manner and in a way that is certain to attract attention, and by selecting the class of people most likely to require what he has to sell he gets larger returns than when advertising promiscuously.

Our system of producing fac-simile letters is the best yet devised and cannot be distinguished from genuine typewritten letters.

We are also prepared to furnish lists of all kinds of names compiled from data of recent date, address envelopes, fold, insert, and mail all kinds of mailable matter in a rapid and economical manner.

A letter or telephone call (1100 Orchard) will bring our representative to you prepared to suggest methods and submit prices.

COMFORT TO MANKIND

And since 1870 adding years to a man's life—SCHNOTER'S ARMY AND NAVY SUSPENSORY BANDAGE is the only permanent relief for VARICOCELE, HYDROCELE and RUPTURE.

Before taking notice of STARTLING ADVERTISEMENTS of so-called VARICOCELE CURES see your family physician. Incidentally ask him about the CELEBRATED SCHNOTER'S SUSPENSORIES. Don't be surprised if he tells you he wears them himself. Any better indorsement wanted?

A SCHNOTER'S SUSPENSORY is the only safeguard against VARICOCELE, RUPTURE, etc.

In use by all prominent ATHLETES, PROFESSIONAL MEN, BUSINESS MEN, POLICEMEN, FIREMEN, LETTER-CARRIERS, and used in the UNITED STATES ARMY and NAVY.

WHEELMEN should not be without one.

Indorsed by prominent physicians and surgeons since 1870. Also by authorities on Hygiene and Physical Culture.

We are specialists in SUSPENSORY making, and we will cheerfully give you any information regarding VARICOCELE and RUPTURE.

Unfortunately

for us, a mistake is made by many people in assuming that we are printers of directories, and nothing more. We are something more—something very much more.

Under the one roof we are builders of high-class catalogs, manufacturers of magazines of all descriptions, printers and binders of general book work—such as school text-books, popular novels, scientific works, classics, etc.—and have as continual customers many of the oldest established publishers, who *know good printing and binding.*

Advertising

TROW'S Business Directories of Manhattan and the Bronx, City of New York, and Trow's Greater New York Business Directory are two of the best advertising mediums extant.

Why we make the above assertion

1st They are purchased and used by business concerns TO LEARN WHERE AND FROM WHOM ANY LINE OF GOODS CAN BE BOUGHT OR SOLD. THEY EXIST FOR THAT PURPOSE ONLY.

2d Their circulation is world-wide.

3d They are not for a day or a month, but for a year, and frequently for a longer period.

4th The advertising rates, in consideration of their wide circulation and the business they bring, are extremely low.

5th Many of the best known houses in New York have advertised in them continuously for many years, and all of them get good returns for the investment.

The features one considers in placing an order for printing are

Quality—Service—Price

Quality: By that is meant suitable designing, engravings that faithfully reproduce, judgment in typographical style, accurate proofreading, type and illustrations well printed in harmonizing colors on adequate paper, and careful binding. Such is the Trow conception.

Service: Of what does it consist at The Trow Press? Ideas, suggestions, conception, promptness in production and the absence to the customer of annoyances in the handling.

Price: The Trow Press is not *always* the lowest in price, but one gets one hundred cents' worth for his dollar—sometimes lower, sometimes higher, but on the average a little lower than elsewhere for an equivalent quality and service.

WEIGHING STATIONS FOR COAL.

The following scales have been designated by the Mayor as weighing stations for coal and coal vehicles under the provisions of chapter 327 of the Laws of 1900:

Under this law every purchaser of coal in New York City has the legal right to send any load of coal so purchased to any of the following scales to be weighed, provided that the scales shall be no more than one-half mile distant from the place of loading or of the place of delivery of said coal.

The weigh master is entitled to a fee of 15 cents a ton, which must be paid by the purchaser, and which may be given to the driver or sent by any other person along with the coal.

After the loaded vehicle is weighed and the coal delivered to the purchaser, the driver must take the empty vehicle back to the scale to be weighed, and the weigh master will then send a certificate of the weight to the purchaser.
